
xkcd-font

Fonts derived from the handwriting of @randallmunroe, the xkcd webcomic author. Yes, it really is his handwriting, and he hopes we fix the pesky kerning:

IF YOU REALLY HATE SOMEONE, TEACH
THEM TO RECOGNIZE BAD KERNING.

This repository contains two fonts, *xkcd Script* and *xkcd*, each with their own characteristics (and limitations):

Font: *xkcd Script*

xkcd Script is a font derived from a handwriting sample provided by Randall. It is far less uniform than *xkcd*, and we think it is therefore more like a true script font.

You can see the font as a live preview, or for more information about the font and how it is constructed see the [xkcd-script/README](#).

Font: xkcd

The [xkcd](#) font was originally created by Randall, and was used in xkcd “The Pace of Modern Life” (April 1st, 2013). It is considerably more uniform than [xkcd Script](#), which can result in more legibility at the cost of being slightly less like the actual xkcd comic.
