## Office Code Pro

**Office Code Pro** is a customized version of **Source Code Pro**, the monospaced sans serif originally created by Paul D. Hunt for Adobe Systems Incorporated. The customizations were made specifically for text editors and coding environments, but are still very usable in other applications.

## Font Variants

### Office Code Pro

Light, Regular, Medium, Bold, and Italic companions

### Office Code Pro D ( Dotted Zero )

Light, Regular, Medium, Bold, and Italic companions

### Available Formats

OpenType, TrueType, EOT, WOFF, WOFF2

–

OpenType ( OTF ) is the recommended font format for desktop use. The TrueType ( TTF ) fonts will work in most circumstances, but are optimized and recommended as webfonts. EOT, WOFF, and WOFF2 formats are exclusively for web use.
